# FIX

Product Range

***BSS is pleased to announce the launch of a quality range of own-brand clips, channel, rod and fixings known as our BOSSfix range.***

The range is manufactured by leading UK suppliers including Flamco, Metsec, Big Foot Systems and ITW Spit. As with all BOSS products, you can be assured of a high-quality end product whilst enjoying the benefits of an excellent value for money range.

This brochure is designed to give you a flavour of what you can expect from BOSSfix and details of the most popular lines within the range. For further details on what this range could offer your business, contact your nearest branch or local BSS account manager.

## **Pre-fabrication**

In addition to this outstanding range, BSS is also working closely with supplier partners including Flamco – one of the world's leading manufacturers of pipe support systems – to utilise their offsite pre-fabricated pipe support system.

A customer can provide details of the pipe sizes and relative positions within their proposed structure. The Flamco team can then specify the support frequency, produce a drawing and submit such for approval. Modular frames can then be assembled and marked before being despatched to site for installation. This process allows for faster pipe installation on-site and reduces labour charges associated with pipe support assemblies.

## **Cost saving to site work**

- Integrated load calculations
- Health and Safety (no hot spots from cutting equipment on-site)
- Savings in site storage of components
- Labour cost savings in assembly work on-site
- Integrated system support
- Environmental savings, power usage and material wastage

## BSA, BSF, BSI and BSU clips

Ranges of high quality clips – both lined and unlined, all electrolytically zinc-plated.

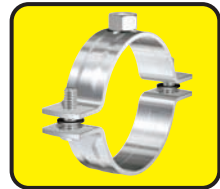

The **BSA clips** have a patented hinge and locking system to ensure rapid assembly and has a rubber inlay with four air chambers for substantial noise reduction.

The **BSF range** of unlined clips are suitable for horizontal mounting to walls or vertical mounting beneath the ceiling, particularly in confined spaces. They are also suitable for heavy loads and high temperatures.

The **BSI range** is fitted with two bolts with anti-loss rings and includes a noise suppressing rubber lining with reinforcing grooves to maintain lining shape.

The **BSU range** of unlined clips are suitable for horizontal mounting to walls or vertical mounting beneath the ceiling, particularly in confined spaces. They feature reinforcing grooves to increase the strength of the clip.

Description	Code
BOSSFIX FLAMCO BSA 15mm 8/10 X 14-16 CU	19055007

## Channel

**BOSSfix rail** is designed to provide a quick and effective way of making a wall or ceiling assembly, allowing several brackets to be mounted next to each other on a single rail.

Available in 3m and 6m lengths, the slotted channels come in a variety of sizes and are accompanied by a range of accessories including PVC end caps to ensure a smooth finish, sprung channel nuts, plain channel nuts and square plate washers.

Description	Code
BOSSFIX 41 X 41 X 2.5 PG SLOTTED CHANNEL 6M	18800044
BOSSFIX 41 X 21 X 2.5 PG SLOTTED CHANNEL 6M	18800088

BOSSFIX M10 PLAIN CHANNEL NUTS	18801323
--------------------------------	----------

BOSSFIX M10 SQUARE PLATE WASHER	18802602
---------------------------------	----------

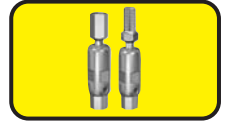

## Hangers

A range of hangers including zinc-plated g-clamps, used for suspending a single pipe run under a steel girder without welding or drilling.

**Ball hangers** – electrolytically zinc-plated and offering a 2 x 20 degree ball element swing allowing for a more flexible suspension of horizontal pipe systems.

Description	Code
BOSSFIX FLAMCO K10 BALL HANGER M10M X M10F	19012065
BOSSFIX FLAMCO KCK10 G CLAMP M10	19018077
BOSSFIX M10 PURLIN CLIPS	18803530

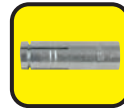

## Fixings, Rod and Connectors

**Fixings** – A range of high quality fixings including penny washers, drop-in anchors, u-bolts and wedge nuts.

**Rod** – Quality screwed rod: an essential component for the versatility of any fixing system. Available in 1m, 2m and 3m lengths. Electrolytically zinc-plated, specification to DIN 975.

**Connectors** – Ideal for connecting two screwed rods together using minimal space. Manufactured in accordance with DIN 13, part 12.

Description	Code

## Big Foot

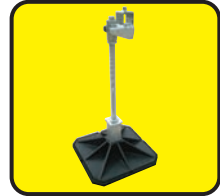

Big Foot Systems are designed to support anything that is installed on a flat roof, creating safe and secure support for air conditioning and refrigeration roof plant and associated pipework. Most simple installations can be successfully supported using the standard range of modular frames and feet. The system can be used to support:

- Pipework
- Ductwork
- Cable trays
- Air Handlers
- Condensers
- Evaporators
- Splits
- VRV's
- VRF's
- Chillers
- Extractors
- Heat Pumps
- Solar Panels
- Walkways & Steppers
