

AMS Pumps

BSS | Specialist in Pumping Systems

Introduction

AMS was acquired by the BSS Group PLC in 1987 to provide a specialist pumps division for BSS. By using the network of BSS branches this made them the largest national distributor of pumps and pumping equipment in the UK.

The original AMS Pumps business was established in the late nineteen sixties and has built up an excellent reputation as a specialist distributor of all types of pumps and pumping solutions & equipment for building services & industrial applications. This service is supported by first class technical advice backed up by commissioning, repair & maintenance facilities.

The AMS Offer

To deliver value for money and excellent service to our customers through sourcing technical solutions, products and packages.

Nationwide Coverage & National Technical Sales Office:

A number of AMS branches will be strategically located across the UK to ensure nationwide coverage. These are located in Glasgow, Leeds, Leicester, Brentford, Lewes, Southampton. A National Technical Sales Office has been established in Manchester and is staffed with a team of experienced pump specialists. A service and engineering facility has also been established in Nottingham.

To find out more about AMS pumps products and services, why not contact our national technical sales office who can arrange without obligation a meeting with our sales team.

Telephone : 0870 609 2101

For a full list of AMS branches go to the back page of this leaflet.

The AMS Pumps Range

We will be working closely with our current key supplier partners including Grundfos, Wilo, Flamco, Stuart Turner & Armstrong and will ensure we continue to align ourselves to the right suppliers for the markets we want to service.

We have the technical knowledge, capability and product ranges to service the demands of:

- Heating & Chilled Water Circulation
- Secondary Hot Water Services
- Potable Water Services
- Water Supply
- Pressurised (sealed) Systems
- Pressure Boosting & Lifting Applications
- Drainage & Waste Water
- Sewage & Treatment
- Chemical Process & Dosing
- Food Process Applications
- Fuel Oil
- Associated Accessories & Controls
- After Sales Servicing & Commissioning

Technical Support:

The National Technical Sales Office and our network of AMS Pump branches can offer solutions & advice for all your pumping applications such as heating, HWS, chilled water circulation, water boosting, supply & distribution, cooling, condensate, drainage, sewage and other general applications such as obsolete pumps and pump replacement. We will ensure that our customers get the right product for the right application.

BSS is a leading distributor of pipeline and heating solutions to the industrial & H&V sectors, with 58 outlets strategically located from Aberdeen to Plymouth.

Our branch network receives daily deliveries from our central warehouse based in the Midlands, using our own trunker fleet and each branch has its own fleet of vehicles for local deliveries.

BSS is committed to providing its customers with a high level of service, including technical advice and, where appropriate, a 'single source solution'.
